

SAFE FEED/SAFE FOOD UPDATE

March 21, 2016

Volume 15

FSC36 Safe Feed/Safe Food Webinar

In the last Safe Feed/Safe Food Update, the pending updates to FSC36 Safe Feed/Safe Food guidance document were listed. The guidance document has been modified to support compliance to the regulatory requirements outlined in the Food Safety Modernization Act final rule, "[Current Good Manufacturing Practice and Hazard Analysis and Risk-based Preventive Controls for Food for Animals](#)." The pending, updated guidance document and checklists can be found on the [Safe Feed/Safe Food website](#).

The American Feed Industry Association and Eurofins will host a webinar to preview the changes made and review how the updates will affect certification. This complimentary webinar is scheduled for April 14, at 11 a.m. EDT.

Henry Turlington, Ph.D., AFIA director of quality, education and training, will discuss the updates to the FSC36 Safe Feed/Safe Food guidance document. Turlington has an extensive background in the feed industry's quality assurance sector and leads the Safe Feed/Safe Food Certification Program.

"Updates to the guidance document were implemented to help certified facilities reach compliance with FSMA," said Turlington.
